94088-3603

Product Description:

GlycoProtein Standard™ Bovine Fetuin

Emergency Phone:
(408) 737-0700 8-5 M-F
1-800-424-9300 After Hours
Information Phone: (408) 737-0700
Date Prepared: October 1, 1990
Prepared By:

Max Ebenhahn

The following information is believed to be accurate and is currently the best information available to us. However, we make no warranties, express or implied, with respect to the information supplied and we assume no liability resulting from its use.

SAFETY DATA: The above standard contains 1 mg of purified bovine fetuin that have been isolated and purified from a natural source. This glycoprotein has an animal (bovine) origin. The definitive pharmacological, toxicological, carcinogenic, teratogenic and other biological properties of bovine fetuin are unknown.

Although the bovine fetuin preparation has not been assessed for microbiological contamination, the substances are nevertheless isolated by chemical conditions and exacting chromatographic separations that will sanitize the isolated materials.

NOTICE

**All of the above standards are
strictly for *in vitro* laboratory research use only.**

**They may not be administered in any
form or combination to humans, animals or plant species.**

Neither may they be used for any diagnostic purposes.
